

SLA & Support Operation Policy

Enterprise Resolution Intelligence System

1. Support Tier Overview

Feature	Basic	Enhanced	Priority	Enterprise
Response Time	< 24 hours	< 4 hours	< 1 hour	< 15 minutes
Support Hours	M-F, 9am-5pm Local time	M-F, 6am-8pm Extended hours	24/5 Business week	24/7/365 Always-on
Channels	Email, Portal	Email, Portal, Chat	All + Phone	All + Dedicated Hotline
Escalation	Standard queue	Priority queue	Direct to L2	Named TAM
SLA Credits	N/A	5% per breach	10% per breach	15% per breach
Monthly Price	Included	\$500/month	\$2,000/month	Custom pricing

2. Response Time Commitments by Severity

Severity	Description	Basic	Enhanced	Priority	Enterprise
Critical (P0)	System down, data loss, security breach	4 hours	1 hour	30 min	15 min
High (P1)	Major functionality impaired	8 hours	4 hours	1 hour	30 min
Medium (P2)	Partial functionality issue	24 hours	8 hours	4 hours	2 hours
Low (P3)	Minor issue or question	48 hours	24 hours	8 hours	4 hours

Note: Response time is measured from ticket creation to first meaningful response from support engineer.

2.1 Resolution Time Targets

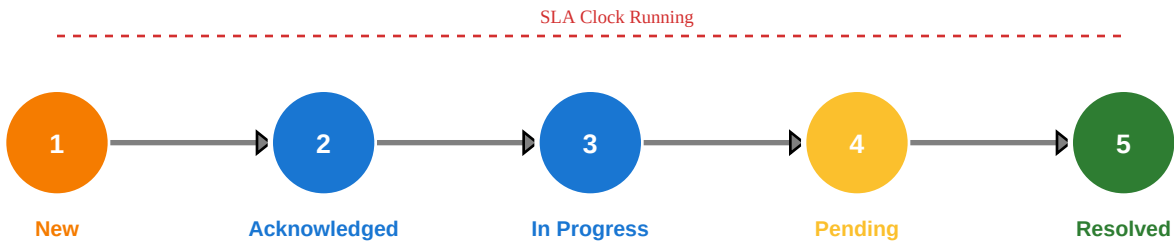

Severity	Target Resolution Time	Status Updates
Critical (P0)	< 4 hours	Every 30 minutes

High (P1)	< 24 hours	Every 2 hours
Medium (P2)	< 5 business days	Daily
Low (P3)	< 10 business days	Every 2-3 days

3. Incident Classification Model

Severity	Business Impact	User Impact	Workaround
Critical (P0)	- Production system down - Revenue impact - Security breach - Data loss	> 50% users unable to work	None available
High (P1)	- Major feature broken - Performance degraded - Integration failure	20-50% users severely impacted	Difficult or time-consuming
Medium (P2)	- Non-critical feature issue - Minor performance impact - Cosmetic bugs	< 20% users moderately affected	Available
Low (P3)	- Feature request - Documentation - General question	Minimal or no impact	Not applicable

3.1 Incident Lifecycle

Stage	Description	Owner
1. New	Ticket created, awaiting triage	Customer
2. Acknowledged	Received and prioritized by support	Support Team
3. In Progress	Actively investigating or resolving	Support Engineer
4. Pending	Awaiting customer info or action	Customer
5. Resolved	Solution provided, awaiting confirmation	Support Team

4. Escalation Triggers & Procedures

Trigger	Condition	Action
Time-based	SLA breach imminent (80% elapsed)	Auto-escalate to next tier
Severity upgrade	Issue becomes more severe during resolution	Reassign to appropriate queue
Customer request	Customer explicitly requests escalation	Manager review within 1 hour
Complex issue	Requires specialized expertise	Engage subject matter expert (SME)
No progress	No meaningful update for 50% of SLA	Supervisor intervention required
VIP customer	Enterprise tier or strategic account	Immediate TAM notification

4.1 Escalation Path

- **Level 1 (L1):** Front-line support engineers (initial triage and common issues)
 - **Level 2 (L2):** Senior engineers and specialists (complex troubleshooting)
 - **Level 3 (L3):** Engineering team (product bugs, code fixes)
 - **Management:** Support managers (process issues, SLA breaches)
 - **Executive:** VP of Support or CTO (critical business impact)
-

5. Resolution Ownership & Accountability

5.1 Primary Ownership

- Support engineer assigned to ticket maintains ownership until resolution or escalation
- Owner responsible for: investigation, updates, coordination, and final resolution
- Handoffs require explicit acceptance from receiving engineer
- Ownership tracked in ticket system with audit trail

5.2 Escalation Ownership

- When escalated, senior engineer assumes primary ownership
- Original engineer remains as secondary contact for context
- Customer always has single point of contact (SPOC)

5.3 Resolution Criteria

Resolution Type	Criteria	Closure Process
Permanent Fix	Root cause addressed, verified in production	Close after 48-hour monitoring period
Workaround	Temporary solution, permanent fix planned	Create follow-up ticket for permanent fix
Configuration	Settings adjusted, system functioning	Document changes, close ticket
Cannot Reproduce	Unable to replicate issue after 3 attempts	Document steps, close with reopen option
By Design	Behavior is intentional, not a bug	Explain design rationale, offer alternatives

6. SLA Credits & Service Guarantees

6.1 SLA Credit Calculation

Credits applied automatically when SLA breached:

- **Enhanced:** 5% monthly fee credit per P0/P1 breach (max 25%)
- **Priority:** 10% monthly fee credit per P0/P1 breach (max 50%)
- **Enterprise:** 15% monthly fee credit per P0/P1 breach (max 100%)

6.2 Exclusions from SLA

SLA does not apply during:

- Scheduled maintenance windows (announced 7 days in advance)
- Customer environment issues (network, browser, client-side problems)
- Force majeure events (natural disasters, war, etc.)
- Customer-requested delays or holds on ticket
- Third-party service failures outside our control

Support Contact Information

Email: support@example.com | Portal: <https://support.example.com>

Phone (Enhanced+): +1-800-SUPPORT | Emergency (Enterprise): +1-800-PRIORITY

Chat: Available in-app during business hours
